THE REGION – MENASA / GCC / UAE

AN ECONOMIC POWERHOUSE
MENASA region is emerging as a powerful economic bloc with tremendous growth potential, combining the sovereign wealth funds (SWFs) of the Mena region to the economic growth story of, say, India, hence, the economic paradigm shift towards this region from other emerging markets.

Dubai plan to become the Capital of Islamic Economy in the next 3 years

**Initiative:**
The vision of His Highness Sheikh Mohammed, Ruler of Dubai, to transform Dubai into the capital of the Islamic economy has given a different resonance to this fast-growing sector of global economy. Dubai has indeed a row of strengths to take on that status.

**The Strength:**
1. The geo-economics of Dubai and the combination of Eastern and Western cosmocultures, makes it easier to do business and more accessible to the key regions of Africa, the Levant, the GCC and Asia.
2. The legal and judiciary systems in Dubai guarantee the necessary security for business and FDI.
3. World class Infrastructure and expertise

DUBAI: RECENT EVENTS

- Organizational restructuring of government departments & related entities
- Successful debt restructuring across all sectors with zero defaults
- GDP is projected to grow at 4%+ and above going forward, as per IMF, way above the average GDP growth of western counterparts

Key Achievements in 2013:
- Dubai GDP growth for 2013 is recorded at 4.9% and expected to grow 4.7% in 2014
- 15%+ growth in direct foreign trade
- 11% growth in tourism as of 2013
- Dubai is ranked 12th in world competitiveness index up seven positions from last year
- UAE ranks 14th in AT Kearney FDI Confidence Index serving as main hub in Arab world
- Real estate market is back on track with 20%+ growth in 2013 – making Dubai – the best growth performance internationally.

While challenges remain, the Dubai economy is on a much sounder footing especially as much of the excesses and speculative elements of the economy have been weeded out. What Dubai is now left with is an unparalleled logistics, commercial, retail, communications and transportation infrastructure in the region - and ready for accelerated growth.

<tbody>
<tr>
<td>1. T+2 settlement cycle;</td>
<td>1. Permitting Local Custodians ability to reject cash and securities settlement of sell trades back to executing Broker for settlement if Local Custodians do not receive (matched) settlement instructions from clients – Local Custodians now have full control of assets [unnecessary to operate dual accounts].</td>
</tr>
<tr>
<td>2. Pre-validation of sell orders will be maintained. This means a seller’s agent trading account with local custodian must have securities balances for pre-validation before a sell order can become a valid order.</td>
<td>2. Enhancing current rejection process for settlement of purchase trades;</td>
</tr>
</tbody>
</table>

### Key Features

#### CHANGED

1. Permitting Local Custodians ability to reject cash and securities settlement of sell trades back to executing Broker for settlement if Local Custodians do not receive (matched) settlement instructions from clients – Local Custodians now have full control of assets [unnecessary to operate dual accounts].

2. Enhancing current rejection process for settlement of purchase trades;

3. Introduction of an irrevocable rejection on T+2 and a late confirmation period of T+4

4. Securities fail handling mechanisms which comprises:
   - a. Optional buy-in [between T+2 and T+3]
   - b. Mandatory buy-in by DFM on T+4.
   - c. Cash close out against the Local Custodian client [if mandatory buy-in against selling Broker by DFM fails on T+4]. Penalties for Late Confirmation.
   - d. Buyer cash compensation in the unlikely event securities are available for delivery.

### Reasons for adopting the changes

1. Reduce risk in Local Brokers having unlimited access to the Local Custodian Client Agent Trading Account.

2. Eliminate the requirement to use a dual account structure.

3. Progression in meeting international best practices under a pre-validation of sale market infrastructure.

4. Facilitate the achievement of Emerging Market status under the MSCI market classification.

DvP methodology has been successfully implemented at DFM as of 2012. Further enhancements are carried out in 2013-14.
